

Shirley's Park and Country Retreat

Nuvera's fiber Internet service allows Shirley's Park to offer connectivity to campers and visitors even when they are getting away from it all.

Shirley's Park Challenge

Shirley's Park & Country Retreat is a seasonal campground located just a few miles outside of New Ulm, MN. The location also offers a wedding and corporate retreat venue. Kayak rentals, fishing access, a picnic area with shelter, and a sandy beachfront round out the many attributes of this new business.

Shirley's Park owner Brian Domeier, who named the location to honor his late mother, recognized that while people like to get away from it all, sometimes it's still necessary to keep in touch with the outside world.

Why They Chose Nuvera

Brian reached out to Nuvera to help him bring fiber Internet out to the campsite. "Other Internet providers don't have the capacity," Brian said. "We can't get the amount of megabytes we need. So, fiber will allow that."

Brian worked with a Nuvera Territory Manager to map the entire campground and determine where Internet was needed and where the access points should be set up.

How The Product Has Helped and Their Experience With Nuvera

Brian is thrilled with the function of being able to control the power to each access point and the speed he is able to offer to each individual camp site. A major goal of the business is to offer a beautiful, rustic setting for weddings and other events but, at the same time, thanks to the Internet availability, guests will be able to livestream those kinds of gatherings to anyone who is unable to attend in person.

About Shirley's Park & Country Retreat

Industry: Camping, Events

Location: New Ulm, MN

Nuvera Solution: Fiber Internet, TV, Security

Website: shirleypark.com

Shirley's Park also provides Nuvera's TV service in the event building where, if it's not being used for weddings or other events, campers are able to relax and watch TV.

Additionally, Nuvera helped Brian set up a security system to keep an eye on the grounds which can be accessed from a cell phone or laptop.

"It's an outstanding service and it couldn't have come at a better time. The technology and Nuvera's capability is very impressive. I'm super pleased."
