

## REMOTE CONTROL QUICK SET UP

### THIS QUICK SET UP GUIDE INCLUDES TV PROGRAMMING CODES ONLY!

If you purchased a new TV, or your remote is no longer programmed to control your TV's power and volume controls, use this guide to either:

1. Search for your code
2. Program your remote with the supplied remote control codes

Formore in-depth instructions, including codes for auxilliary devices, please see the the full version of the remote control set up instructions at [www.getintegra.com](http://www.getintegra.com).

### SEARCHING FOR YOUR CODE

If your home entertainment device does not respond to the Potenza ST Universal Remote Control after trying all of the codes listed for your brand, or if your brand is not listed at all, try searching for your code.

For example, to search for a code for your TV:

1. Turn on your TV.
  2. On the remote control, press **TV** once; it will blink once. Then press and hold **SETUP** until the **TV** key blinks twice.
    - 
  3. Type **9 9 1**. The **TV** key will blink twice.
    - 
    - 
    - 
  4. Aim the remote control at the TV and press **POWER** once.
    - 
  5. Press and release the **CH+** key continuously, then stop when the TV turns off.
    - 
- NOTE:** In the search mode, the remote control will send IR codes from its library to the selected device, starting with the most popular code first.
6. Press **POWER**. The TV should turn on, then press **SETUP** once to lock in the code. The LED will blink twice to indicate that the code is saved.
    - 
- NOTE:** If the TV does not turn on during step 6, then slowly press and release **CH-** to go back through the codes, then press **SETUP** when the TV turns on.
- 
7. To search for the codes of your other devices, repeat steps 1 through 6, but substitute the appropriate key (e.g., **VCR**, **DVD**, **AUD**, or **STB**) for the device you are searching for.

## PROGRAMMING DEVICE CONTROL

The Potenza ST Universal Remote Control is preprogrammed to operate the set-top box provided by your television service provider, an RCA TV, a Toshiba DVD player, an RCA VCR, and a Pioneer audio receiver. To control devices other than the default brands, perform the following steps; otherwise skip this section.

**NOTES:** For control of a Combo device (for example, a TV/VCR combo), skip this section and perform the instructions on “Setting Up a Combo Unit” on page 11. Also refer to “Device Table” on page 8 to find out which devices can be programmed onto each device key.

If you have another brand of set-top box you would like to control, you’ll need to unlock the STB ID Lock before changing the set-top box code (see “Programming ID Lock” on page 19).

1. Turn on a device and, if applicable, insert video media, (e.g., cassette or disc).

**NOTE:** Please read steps 2 through 5 completely before proceeding. Highlight or write down the codes and device you wish to program before moving on to step 2.

2. On the remote control, press a device key once (i.e., **VCR**, **DVD**, **AUD**, **TV**, or **STB**); it will blink once.

3. Press and hold **SETUP** until the selected mode key blinks twice, then release **SETUP**.

4. Use the “Manufacturer’s Codes” starting on page 27) to locate the type of device and brand name and then enter the first four-digit code for your device. If performed correctly, the selected mode key will blink twice.

**NOTE:** If the selected mode key emits a long blink, the entry is invalid. Repeat steps 2 through 4 and try entering the same code again.

5. Aim the remote control at the device and press **POWER** once. The device should turn off. If it does not, repeat steps 2 through 4, trying each code for your brand until you find one that works. If it still does not respond, try searching for the code
