**Care
Call**

Programmed to Help

Care Call is your personal link to family, friends or emergency personnel when needed. The system allows you to program up to 4 numbers to be reached at the push of a button. Slide a switch on the base unit to:

- Call up to 4 custom contacts
- Call up to 4 custom contacts and then 911
- Call 911 immediately

Emergencies can happen anywhere. Because you are speaking through the pendant, Care Call allows you to personally communicate your emergency from anywhere in your home or yard.

Convenient for Travel

Whether you are going across town or across the country, just unplug your Care Call from the phone jack, unplug the power adaptor and take it with you. When you reach your destination, simply plug it into the local phone jack and power outlet. No additional programming needed. If you call 911, they will have the contact information from where you are calling.

Easy to Use

Care Call comes with 3 accessories for carrying the pendant, including a lanyard, belt clip or wrist-strap. Nuvera's staff will install your Care Call device and provide training to assure you are comfortable using it. The unit comes with 4 rechargeable batteries which will provide up to 24 hours of standby power in the event of a power outage.

If others in your home need to share the system, you may add up to 4 pendants and emergency wall communicators to one base unit.

Pricing

One Device	\$22.95/month
Installation/Training	\$60.00
Additional Pendant	\$8.00/month
